LEVEL 1™

# Quality. Choice. Confidence. Level 1<sup>®</sup> Snuggle Warm<sup>®</sup> Blankets

## Quality.

Level 1<sup>®</sup> products are designed and manufactured to meet your needs for consistency, durability and ease-of-use.

- Resistant to tears, punctures, and fluids
- Precisely positioned air holes and channel design maximize heat delivery
- Latex-free and radiotranslucent
- Foldable blanket material allows for easy access to patient

## Choice.

Level 1<sup>®</sup> offers a variety of convective blankets for your procedural needs.

- 18 blanket styles for clinical versatility
- Seven new blanket designs; five unique blankets
- Consistent warming performance

## Confidence.

Level 1<sup>®</sup>, the name you trust for your patient warming needs.

- Blankets “snuggle” to your patient, reducing the need for tie-downs
- Hose-end temperature control
- Quiet operation

Four temperature set-points allow for patient-specific therapy selections

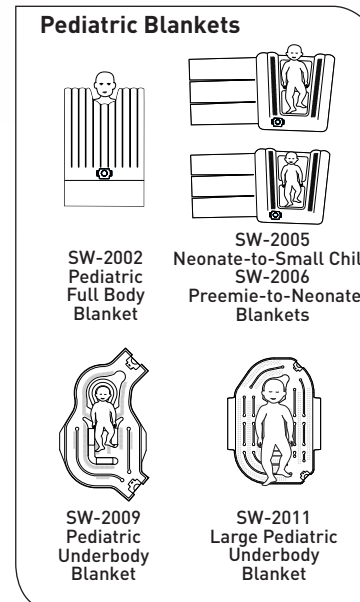

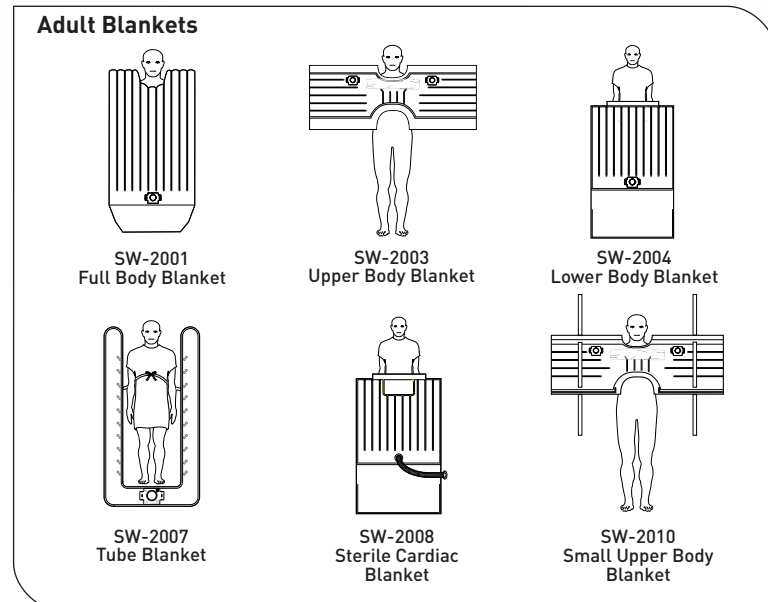

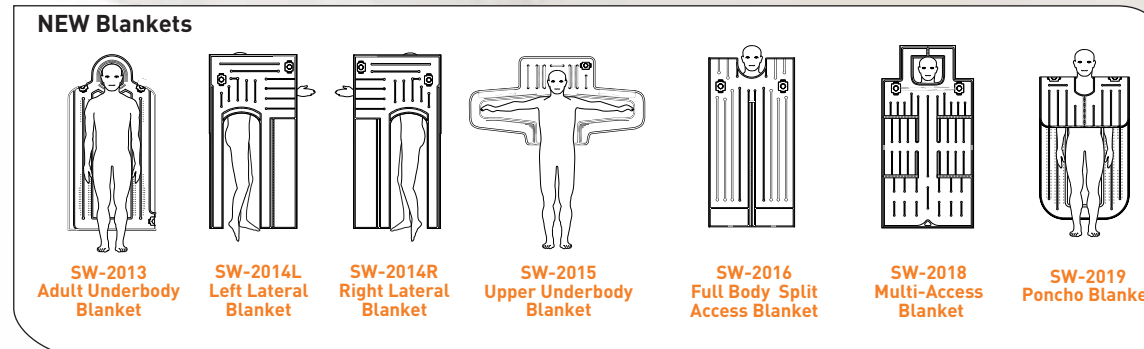

Fabric-like feel is soft and comfortable next to the patient's skin

Durable, material is resistant to tears, punctures, and fluids

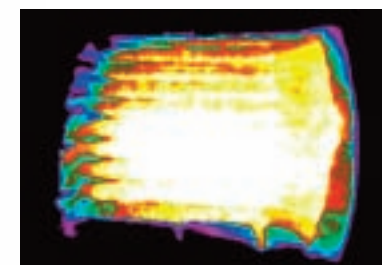

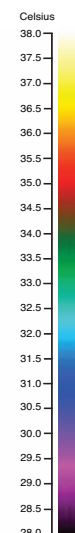

“One-click” temperature selection, reducing the steps to start delivering warmth

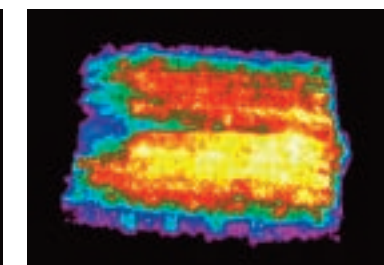

Offering 18 blankets for a wide variety of patient positioning needs, Snuggle Warm<sup>®</sup> Convective Warming Blankets provide you with choices for warming your patients.

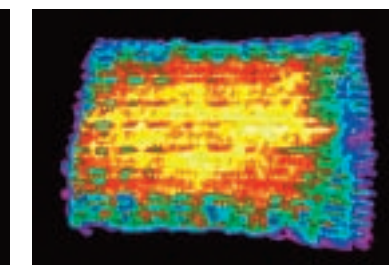

## Snuggle Warm<sup>®</sup> blankets stand above the rest.

Snuggle Warm<sup>®</sup> Lower Body Blanket with Smiths Medical Equator<sup>®</sup> on high setting.

Bair Hugger<sup>®</sup> Lower Body Blanket with Arizant Bair Hugger<sup>®</sup> Model 505 on high setting.

CareDrape<sup>®</sup> Lower Body Blanket with Covidien WarmTouch<sup>®</sup> Model 5200 on high setting.

Thermal images tell the story; temperatures are depicted by color, yellow/white being the warmest. Warm blankets lead to warm patients.
